

My Bethany

Guide

We are excited to introduce you to our new church software from Church Community Builder, My Bethany.

Your Church Community Builder site is a communication hub which enables members to interact and encourage one another as well as, keep up-to-date with the latest happenings in their groups and the church body. Members can join groups, register for events, express interest in service opportunities, sign up for needs, communicate with other members, and view personalized calendars.

- You can log into My Bethany from any computer or device connected to the internet.
- Your login is secure. The information you enter is available only to others with a login, and logins are only granted to members and friends of our church.
- Offers online giving.
- See your giving record online. It is, of course, completely private, but you'll be able to log in and print your own giving statement.
- We use the site as our church directory, so make sure your contact information (phone, address, email) is always up to date.
